REELS IN MINUTES

Your reel is live before you leave.

Pune's first instant content service. We shoot, edit and post on site, and hand over finished reels within 10 to 15 minutes, while the event is still running.

01 · WHO WE ARE

Shot, cut and posted while the event is still on.

Reels in Minutes launched in August 2026 as the instant content arm of Reddy Arts Media, a production house with more than two decades in film and media. We are a team of 10 to 15 people who shoot on site, edit on site and post on the spot.

Most content reaches the feed days after the moment has passed. Ours goes out while people are still in the room, which is when they share it. We keep the quality the same at that speed and at volume, whether the brief is a factory floor, a festival ground or a wedding.

01

Shoot on site

Cinema cameras, gimbals and drones, run by a crew sized to the event.

02

Edit on site

Editors sit at the venue, cutting while the event runs.

03

Render in high quality

Colour, sound, captions and branding, finished for vertical screens.

04

Post instantly

Delivered to your team or posted straight to your handles.

10–15 min

From the moment it happens to a finished reel in your hands. That is the promise in our name, and we keep it across events, corporate work, weddings, institutions and public bodies.
